About Webzine

Webzine 2005 is a two-day conference featuring discussions with emerging self-publishers and hands-on workshops teaching new technologies in independent media and broadcasting. Founded in 1998, Webzine is a conference and celebration of independent publishing. Its participants are early adopters of online culture, citizen journalists, new media makers, students and professionals alike. Organizers expect 1000 to 1500 participants to attend over the course of the event this year.

Webzine 2005 is a not-for-profit event organized by passionate volunteers & independent media makers. Media creators of all stripes will be speaking on panels, attending workshops and sharing tips with each other. All sponsorship funds go directly to the creation of the event. Sponsorships enable affordable admission prices, thus allowing a healthy cross section of interested media makers across all income levels to be a part of this event.
